HAWKER HX

SECURE, ENCRYPTED, RUGGEDIZED MOBILE DRIVE WITH USB 3.0 AND ESATA PORTS

AES-256 Real-Time Hardware Encryption with NIST and FIPS Validated Cryptographic Modules

Hawker HX contains the world's most technologically advanced real-time hardware encrypted external drive in the market.

Designed and engineered in the United States to satisfy the requirements of demanding security concerned professionals; the Hawker can support a solid-state drive "SSD" or a fast SATA high-capacity 2.5" hard drive. Hawker can be easily moved from one computer to another using the provided carrying case. Hawker is compatible with both Windows and Macintosh environments without any software installations.

The Hawker external hard drives deliver extraordinary performance, rapid file transfer speeds (up to 5,000 Mbits/s), and proven reliability for both Mac and PC users. And because it provides up to 1TB in single hard drive, one of the first of its kind, this device is one of the most, if not the most, versatile portable external drives in the world.

The Hawker LX is made with aircraft-grade aluminum, making this enclosure both ruggedized and durable. An exclusive shock-absorbing mechanism (patent pending) is built into the enclosure. Its function is to keep the hard drive suspended within the casing while dissipating the heat produced by the hard drive. The Hawker is designed this way to allow peak performance while operating at an optimal temperature.

The bus-power feature offers the user added convenience by eliminating the need to carry nonstandard and sometimes hefty adaptors and cables that are normally required to power typical hard drives.

SPECIAL FEATURES

- Pocket-size portable external storage drive
- Ruggedized aluminum casing
- Bus powered
- Carrying case included
- Incorporates SATA hard drive
- USB 3.0 and eSATA connections
- Speeds up to 5,000 Megabytes per second
- Enhanced with new shock-absorbents mechanism (patent in progress)
- Compatible with both Windows and Macintosh environments
- Bus powered (no adaptor required)
- Includes all necessary cables

SPECIFICATIONS	
Capacity	750GB and 1TB
Rotational Speed	5400 or 7200 RPM
Interface	USB 3.0 (USB 2.0 compatible) and eSATA
Transfer Rate	USB 3.0 up to 5,000 Mbit/s and eSATA up to 3,000 Mbit/s
Dimensions & Weight	~5.3 x 3.4 x 0.9 inches (~132 x 8.30 x 2.6 centimeters) ~ 8 ounces – 0.25 Kilogram
System Requirements	Mac or PC computers USB 3.0 or 2.0 or eSATA port(s) Mac: PowerPC or Intel Core Duo processor PC: 266Mhz or faster Intel or equivalent processor
Recommended Memory	512MB RAM
OS Requirements	Mac: PowerPC or Intel processor running Mac OS 9, X, Leopard, Snow Leopard, Lion PC: Microsoft® Windows 2000, Me, XP, Vista, Windows 7-8
Warranty	2 years limited warranty
Content	External hard disk drive, Carrying case Quick installation guide, USB cable 3x Digital Secure keys (Key-tokens)

Capacity Disclaimer: Actual accessible hard drive capacity will indicate up to 10% lower than stated under different Operating Systems and formatting. Therefore, a 500GB capacity drive will show up as a 450GB drive (approximately).
