

Rocstor Premium USB-C to Gigabit Ethernet Network Adapter PXE Boot compliant

Y10A174-B1

Rocstor Premium USB-C to RJ45 Dongle (PXE Boot compliant) - USB-C to Gigabit Network Adapter - USB Type-C to Gigabit Ethernet 10/100/1000 Adapter - PXE Boot compliant - Compatible with Mac & PC - Plug & Play (No Drivers Needed) - USB 3.1 - 1 Port(s) - 1 - Twisted Pair - USB 3.1 Type C - 1000Base-X - Portable - Black

Rocstor USB-C to Gigabit adapter enables users to instantly connect a USB-C or Thunderbolt 3/4 device to a Gigabit 10/100/1000 Ethernet network using a single Ethernet cable. It supports 10 / 100 / 1000 Mbps with auto-detection - Access large files with checksum and large send offload. The USB-C to LAN adapter supports full Gigabit bandwidth by harnessing the performance of USB 3.1 Gen 1 (5Gbps). You can access very large files over the network at 10/100/1000Mbps network speeds with checksum offload (IPv4, IPv6, TCP, UDP) and large-send offload support. This small-but-powerful adapter connects directly to your device's USB-C or Thunderbolt 3/4 port with no software, drivers or external power required. Simply plug it in, connect it to your network, and you're ready for action. With the reliability of a wired connection, you can transfer large amounts of data with confidence-or stream audio and video without fear of interruption.

Supports PXE Boot

This premium adapter supports PXE Boot capability allows IT admins to wake on LAN and remotely push updates, check the health of a laptop, make BIOS updates to systems and more. Unlike traditional USB cables that can only be attached one way, this adapter reversible Type-C connector plugs into your device's USB-C or Thunderbolt 3 port in either direction. No more fumbling around with cables, trying to get the right connection.

With plug-and-play installation, the user-friendly this USB-C to gigabit adapter gets you up and running quickly with an instant USB network connection. It works with Windows, Mac and Chrome operating systems and is backward compatible with previous USB generations.

Access True Gigabit Speeds Without an Ethernet Card

This USB to LAN converter delivers full 10/100/1000 Mbps network speeds without requiring you to install an internal Ethernet card in your device. It's a convenient and affordable way to expand the potential of your PC, laptop or tablet. backed by Rocstor 2-year warranty and free lifetime technical support.

Features:

- **Connects a USB-C or Thunderbolt 3/4 PC or Mac, laptop or tablet to a wired Ethernet network**
- **PXE Boot capability allows IT admins to wake on LAN and remotely push updates, check the health of a laptop, make BIOS updates to systems and more.**
- **Provides instant access to Gigabit speeds without an internal Ethernet card**
- **Simplified connections with a reversible Type-C connector that plugs into your device's port in any direction**
- **Easy to install with plug-and-play operation-no software or drivers required**
- **Ultra-compact design for easy transport**

Specification:

Media Type Supported	Twisted Pair
Product Type	Gigabit Ethernet Adapter
Manufacturer Part Number	Y10A174-B1
Manufacturer	Rocstor
Manufacturer Website Address	http://www.rocstor.com
Device Supported	Computer/Notebook Network & Communication
Network Technology	10/100/1000Base-T
Form Factor	Portable
Host Interface	USB Type C
Number of Network (RJ-45) Ports	1
Total Number of Ports	1
Features	PXE Boot
Device Supported	Computer/Notebook/Tablet
System Requirements	Windows® XP, Vista, 7, 8, 8.1, 10 Windows Server® 2003, 2008 R2, 2012, 2016, 2019 Mac OS X® 10.7 to 10.14 VLAN tagging is currently not supported in Mac OS Linux Kernel 2.6.25 to 4.11.x LTS Versions only
Country of Origin	Vietnam
Environmentally Friendly	Yes
Environmental Certification	RoHS REACH WEEE FCC/CE
Warranty	2-Year
