

## SolidRack 2U 19in Steel Vertical Wall Mount Equipment Rack Bracket - Black

PN: Y10E031-B1

Rocstor's Premium 2U rack bracket is a versatile and practical solution for organizing and storing your equipment neatly and securely on the wall rack. The 2U height provides ample space to store and organize multiple devices, while the ability to mount the rack vertically or horizontally offers flexibility in terms of placement and access. Mounting the rack horizontally under your desk allows you to quickly access and configure the equipment, while mounting it vertically on the wall can help you save valuable floor space.

The wall mount bracket is made of heavy-duty steel, which provides the necessary strength and durability to support your equipment up to a static weight of 125 lbs. (56.7 kgs) without the risk of damage. This makes it a reliable and secure solution for mounting your equipment, especially in harsh environments. Compliance with the EIA-310 standard for 19-inch rack equipment ensures compatibility with a wide range of networking and telecommunication devices. By freeing up floor space and keeping your equipment organized, this bracket can help improve the efficiency and functionality of your work environment.

The premium bracket features mounting holes spaced 16-inch apart, which align with the standard wall-mounting stud-spacing framework, making installation simple and easy. This 2U server rack is backed by Rocstor's lifetime warranty and phone support.
